

Press Release

Santa Clara District Attorney Has Alphabet on Their Radar Screen

Santa Clara, Cal., May 2, 2019/PRNewswire-FirstCall/ -- Arumai Technologies, Inc., the only leading, independent, pure-play OTT products and solutions company in the industry today, received an early morning telephone call from Ms. Spain, an investigator in the Santa Clara District Attorney's Office. Chairman & CEO, P. Stephen Lamont stated "Ms. Spain was requesting further information regarding the criminal perjury charge filed against David Krane CEO of Google Ventures."

At approximately 4:30 P.M. PST, Ms. Spain was sent the further incontrovertible information regarding criminal perjury and Lamont stated "I received a Read Receipt."

Lamont went on to muse, "I don't know what charade Alphabet is trying to play here, as I already have a circumstantial case that hush money was paid to mask the misappropriation of trade secrets in violation of 18-cv-1836 Defend Against Trade Secrets Act of 2016. One solid piece of evidence and I am going to have to ask for leave to file a Second Amended Complaint under the claim of a Civil RICO violation. If Alphabet wants to take that risk, so be it, advertisers will flee, Alphabet will go away, and we can all get back to using Yahoo search.

Lamont, as is typical, closed by stating "Arumai is about much more than money, trade secrets, and products. It is about values. We value originality and innovation and pour our lives into making the best products on earth, and we do this to delight our customers. Eventually, values will win, and we hope the whole world listens."
